### ### **\*\*Assembly and Finishing\*\***

#### #### **\*\*Sewing on Arms\*\***

1. To place the right arm, find the last increase made on the side of the body. Move up two rows from there.
2. Insert the arm wire with a twisting motion. Secure with a pin.
3. Using the long yarn tail, start sewing from the body, inserting the needle between rows.
4. Continue sewing, alternating stitches on the body and the arm to attach it securely.
5. Sew back in the opposite direction using smaller stitches to reinforce the seam.
6. Make the final stitch on the body. Bring the needle out under the armpit, secure the yarn with a knot, and hide the tail inside the body.
7. Repeat for the left arm.

#### #### **\*\*Face Detailing\*\***

##### **\*\*Materials:\*\***

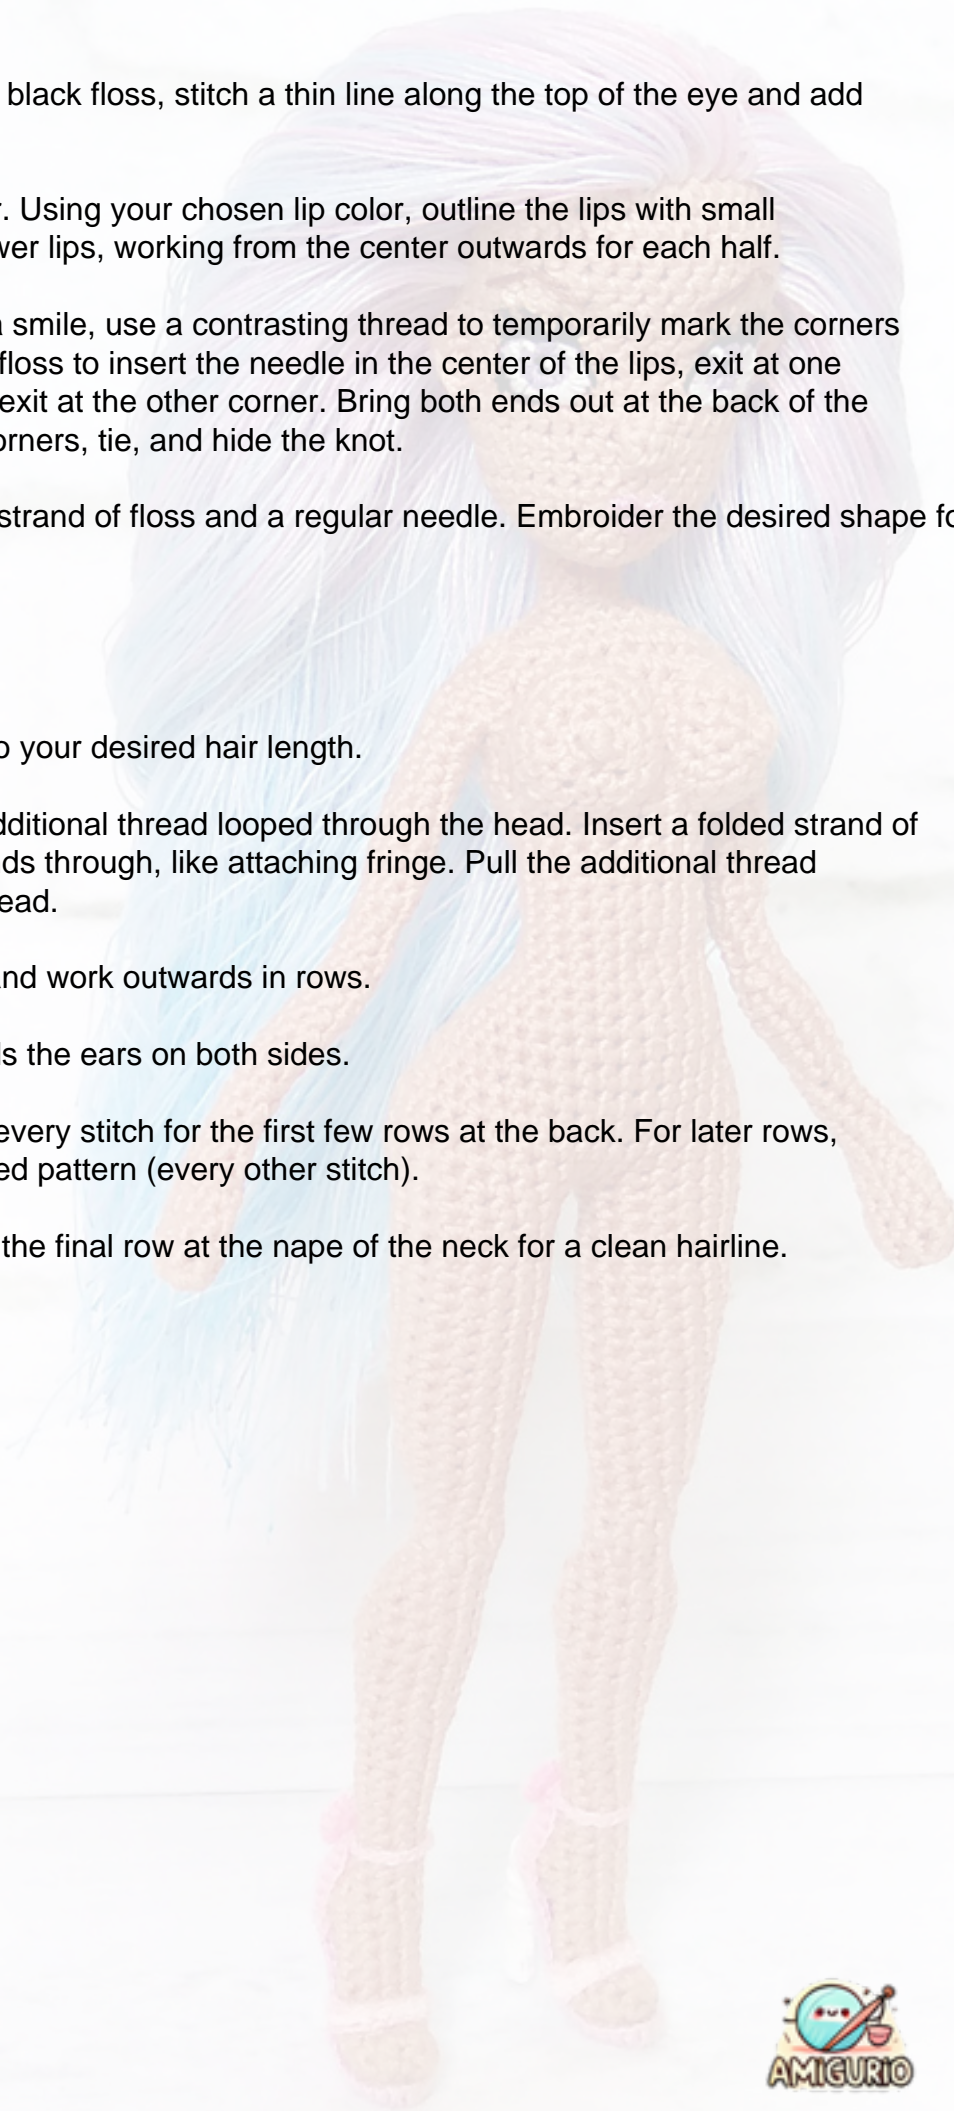

\* **\*\*For Eyes & Lips:\*\*** Embroidery floss (5-6 shades for eyes), beading needle, sewing needle, scissors, self-erasing fabric marker.

\* **\*\*For Hair:\*\*** Yarn or woolen threads in desired color, scissors, crochet hook.

##### **\*\*Eyes & Lips:\*\***

1. Draw the eye contour with the marker. Embroider using a single strand of floss.
2. **\*\*Pupil:\*\*** Using black floss, outline and fill the pupil.
3. **\*\*Iris:\*\*** Using your main eye color, stitch around the pupil. Then fill in the rest of the iris with small, neat stitches.
4. **\*\*Sclera (White):\*\*** Using white floss, stitch the contour around the iris. Fill in the whites of the eyes. Highlights can be embroidered with white floss or added later with acrylic paint.

- 
5. **\*\*Eyeliner & Lashes:\*\*** Using black floss, stitch a thin line along the top of the eye and add small eyelashes at the corner.
  6. **\*\*Lips:\*\*** Draw the lip contour. Using your chosen lip color, outline the lips with small stitches. Fill in the upper and lower lips, working from the center outwards for each half.
  7. **\*\*Lip Sculpting:\*\*** To create a smile, use a contrasting thread to temporarily mark the corners of the mouth. Use your lip color floss to insert the needle in the center of the lips, exit at one corner, re-enter the center, and exit at the other corner. Bring both ends out at the back of the head, pull gently to indent the corners, tie, and hide the knot.
  8. **\*\*Eyebrows:\*\*** Use a double strand of floss and a regular needle. Embroider the desired shape for the eyebrows.

**\*\*Hair:\*\***

1. Cut yarn or woolen threads to your desired hair length.
2. To attach a strand, use an additional thread looped through the head. Insert a folded strand of hair into the loop and pull the ends through, like attaching fringe. Pull the additional thread tight to pull the knot inside the head.
3. Start at the crown (the MR) and work outwards in rows.
4. Attach hair diagonally towards the ears on both sides.
5. For a full look, attach hair in every stitch for the first few rows at the back. For later rows, you can attach hair in a staggered pattern (every other stitch).
6. Attach hair in every stitch on the final row at the nape of the neck for a clean hairline.
