Sculpting

2. **Mouth:** Mark two points between Rnds 29 and 30, centered under the nose with 2-3 sc between them.
3. **Eyes:** Between Rnds 18 and 19, mark four points for the inner and outer corners of the eyes. The inner corners should align with the sides of the nose. Leave 2-3 sc between the inner and outer points on each side.
4. Insert your needle at point 1 (one side of the mouth), leaving a long tail. Exit at point 2 (inner corner of one eye).
5. Go into point 3 (outer corner of the same eye) and exit at point 6 (the other side of the mouth).
6. Adjust the thread so it sits under the eye. Pull tight to create an indent and tie two knots with the starting tail.
7. Without cutting the thread, insert the needle back into point 6, exit at point 5 (outer corner of the second eye).
8. Go into point 4 (inner corner of the second eye) and exit back at point 1.
9. Pull tight, tie a few knots, and hide the ends inside the head.

Ears (Make 2)

Pull the ring tight but do not join. Chain 1 and turn.

****Rnd 2:** (1 sc, inc)*3 = 9**

**Lower Lip**

1. Leave a 30 cm starting tail. Make 6 sc in a MR and pull tight to form a semicircle.
2. Leave a 40-45 cm ending tail and cut the yarn.
3. Pin the lip 2-3 rows below the mouth sculpting.
4. Use the starting tail to sew the center of the lip to the head, pulling slightly to create a pout.
5. Use the ending tail to secure the ends of the lip. Make stitches from the corners of the lip up towards the nose joining point (between Rnds 18 and 19) to secure them. Hide ends inside the head.

**Gluing Eyes**

1. If using felt, glue the eyes to the center of the felt circles first.
2. Glue the felt circles onto the face, close to the nose, covering the sculpting points for the eye corners.

**Addendum: Installing Safety Eyes**

1. Install eyes between Rnds 17 and 18 of the head.
2. Leave 6-8 stitches between the installation points. Center the eyes relative to the nose.
3. If using felt circles, fold a circle in half and make a small cut near the center. Turn the circle 90 degrees and make another cut to form a cross shape.
4. Insert the safety eye post through the felt cross, then insert the eye into the head and secure with the washer on the inside.
5. After sculpting, you can add a small amount of glue around the post on the inside for extra security.
