**Assembly & Detailing**

**Eye Sculpting**

Use a long needle and strong thread (like dental floss).

1. **First Sculpting (Cheeks):**

- * Insert the needle between R28 and R29, centered relative to one eye.
- * Bring the needle out at the lower outer corner of the eye.
- * Re-insert the needle at the lower inner corner of the same eye.
- * Bring the needle out at the starting point, one stitch over.
- * Pull both ends of the thread to indent the eye slightly and create a cheek. Tie the ends securely, cut, and hide them inside the head.
- * Repeat for the other eye.

2. **Second Sculpting (Eye Sockets):**

- * Insert the needle at the back of the neck where the colors change.
- * Bring the needle out at the lower outer corner of one eye.
- * Re-insert the needle at the lower inner corner of the same eye.
- * Bring the needle back out at the starting point on the neck, one stitch over.
- * Without cutting the thread, repeat the process for the second eye.
- * Pull both thread ends gently to deepen the eye sockets. Tie the ends securely, cut, and hide them inside the head.

Face Embroidery

- * **Mouth:** Use red fine weight yarn (e.g., YarnArt Jeans), doubled. Insert the needle near where the nose will be. Bring it out in the smile-line created by the cheek sculpting. Insert the needle on the opposite smile-line and bring it back to the starting point. Pull to form a gentle smile. Tie off and hide the ends.
- * **Eyelashes/Eyeline:** Use a single strand of black fine weight yarn to embroider small wings at the outer corners of the eyes.
- * **Whites of the Eyes (Optional):** Use a single strand of white fine plush yarn (e.g., Himalaya Dolphin Fine) to embroider a small crescent on the side of each safety eye, covering about 1/3 of the eye's side.
- * **Eyebrows:** Use a single strand of black fine weight yarn. Embroider eyebrows between R36 and R37. Each eyebrow should be about 3 stitches wide, with a 6-stitch gap between them.

Component Assembly

- * **Noses:** Sew the Snowman or Gnome nose onto the center of the face, just below the eyes.

- * **Gnome Ears:** Sew the ears to the sides of the head, roughly in line with the eyes.
- * **Legs:** Sew the boots to the body between R1 and R7.

Gnome's Beard

1. Use Alize Softy+ yarn. Cut several strands, each about 18 cm long.
2. Take one strand and fold it in half to create a loop.
3. Insert your hook under a stitch in the first round below the mouth.
4. Use the hook to pull the looped end of the yarn strand through the stitch.
5. Pull the two loose ends of the strand through the loop and tighten to create a knot.
6. Repeat this process to create a full beard, following the desired jawline. Trim and style as needed.

Clothing & Accessories

Costume Edging

- * Using a contrasting plush yarn, attach the yarn to the front loops of R13 on the body (the round before the color change). Work SCs all the way around to create a belt effect.
- * Similarly, work SCs into the front loops of R5 on each arm to create sleeve cuffs.

Placket and Collar

- * Use white yarn (e.g., Alize Softy+).
- * **Placket:** Attach the yarn at the front-center of the body, just above the "belt" edging. Work a vertical line of SCs up to the neck by inserting your hook under the stitches of the body.
- * **Collar:** Continue from the top of the placket, working SCs around the neck, as close to the head as possible, to create a collar. Fasten off and weave in ends.
