Halo

Assembly

1. Place an arm inside a sleeve. Using the long tail from the arm, sew the arm to the sleeve opening, then use the same yarn to sew the completed sleeve to the body. Repeat for the second arm.
2. Use the starting tails from the arms to tie them together inside the body. Hide the ends inside the arms.
3. Sew the Head of Hair onto the head.
4. Sew or glue the wings to the back of the body.
5. To attach the halo, gently create a small opening in the hair and head with an awl or scissor tip. Add a drop of glue into the opening and insert the twisted wire stem of the halo. Alternatively, you can secure it with a few small stitches instead of glue.
