Finishing

Face Sculpting

1. Use a long needle and strong, matching thread.
2. To create cheeks and eye sockets, insert the needle at the back of the head and bring it out at the desired location for the inner corner of one eye.
3. Go back in one stitch over and bring the needle out at the outer corner of the eye. Pull gently to create an indentation.
4. Repeat for the other eye. Tie off threads securely at the back of the head and hide the ends.

Nose

- * Using the skin tone yarn or a slightly darker shade, embroider a small, round nose in the center of the face. Pass the needle back and forth in a small circle, building up layers until the nose is a noticeable shape.

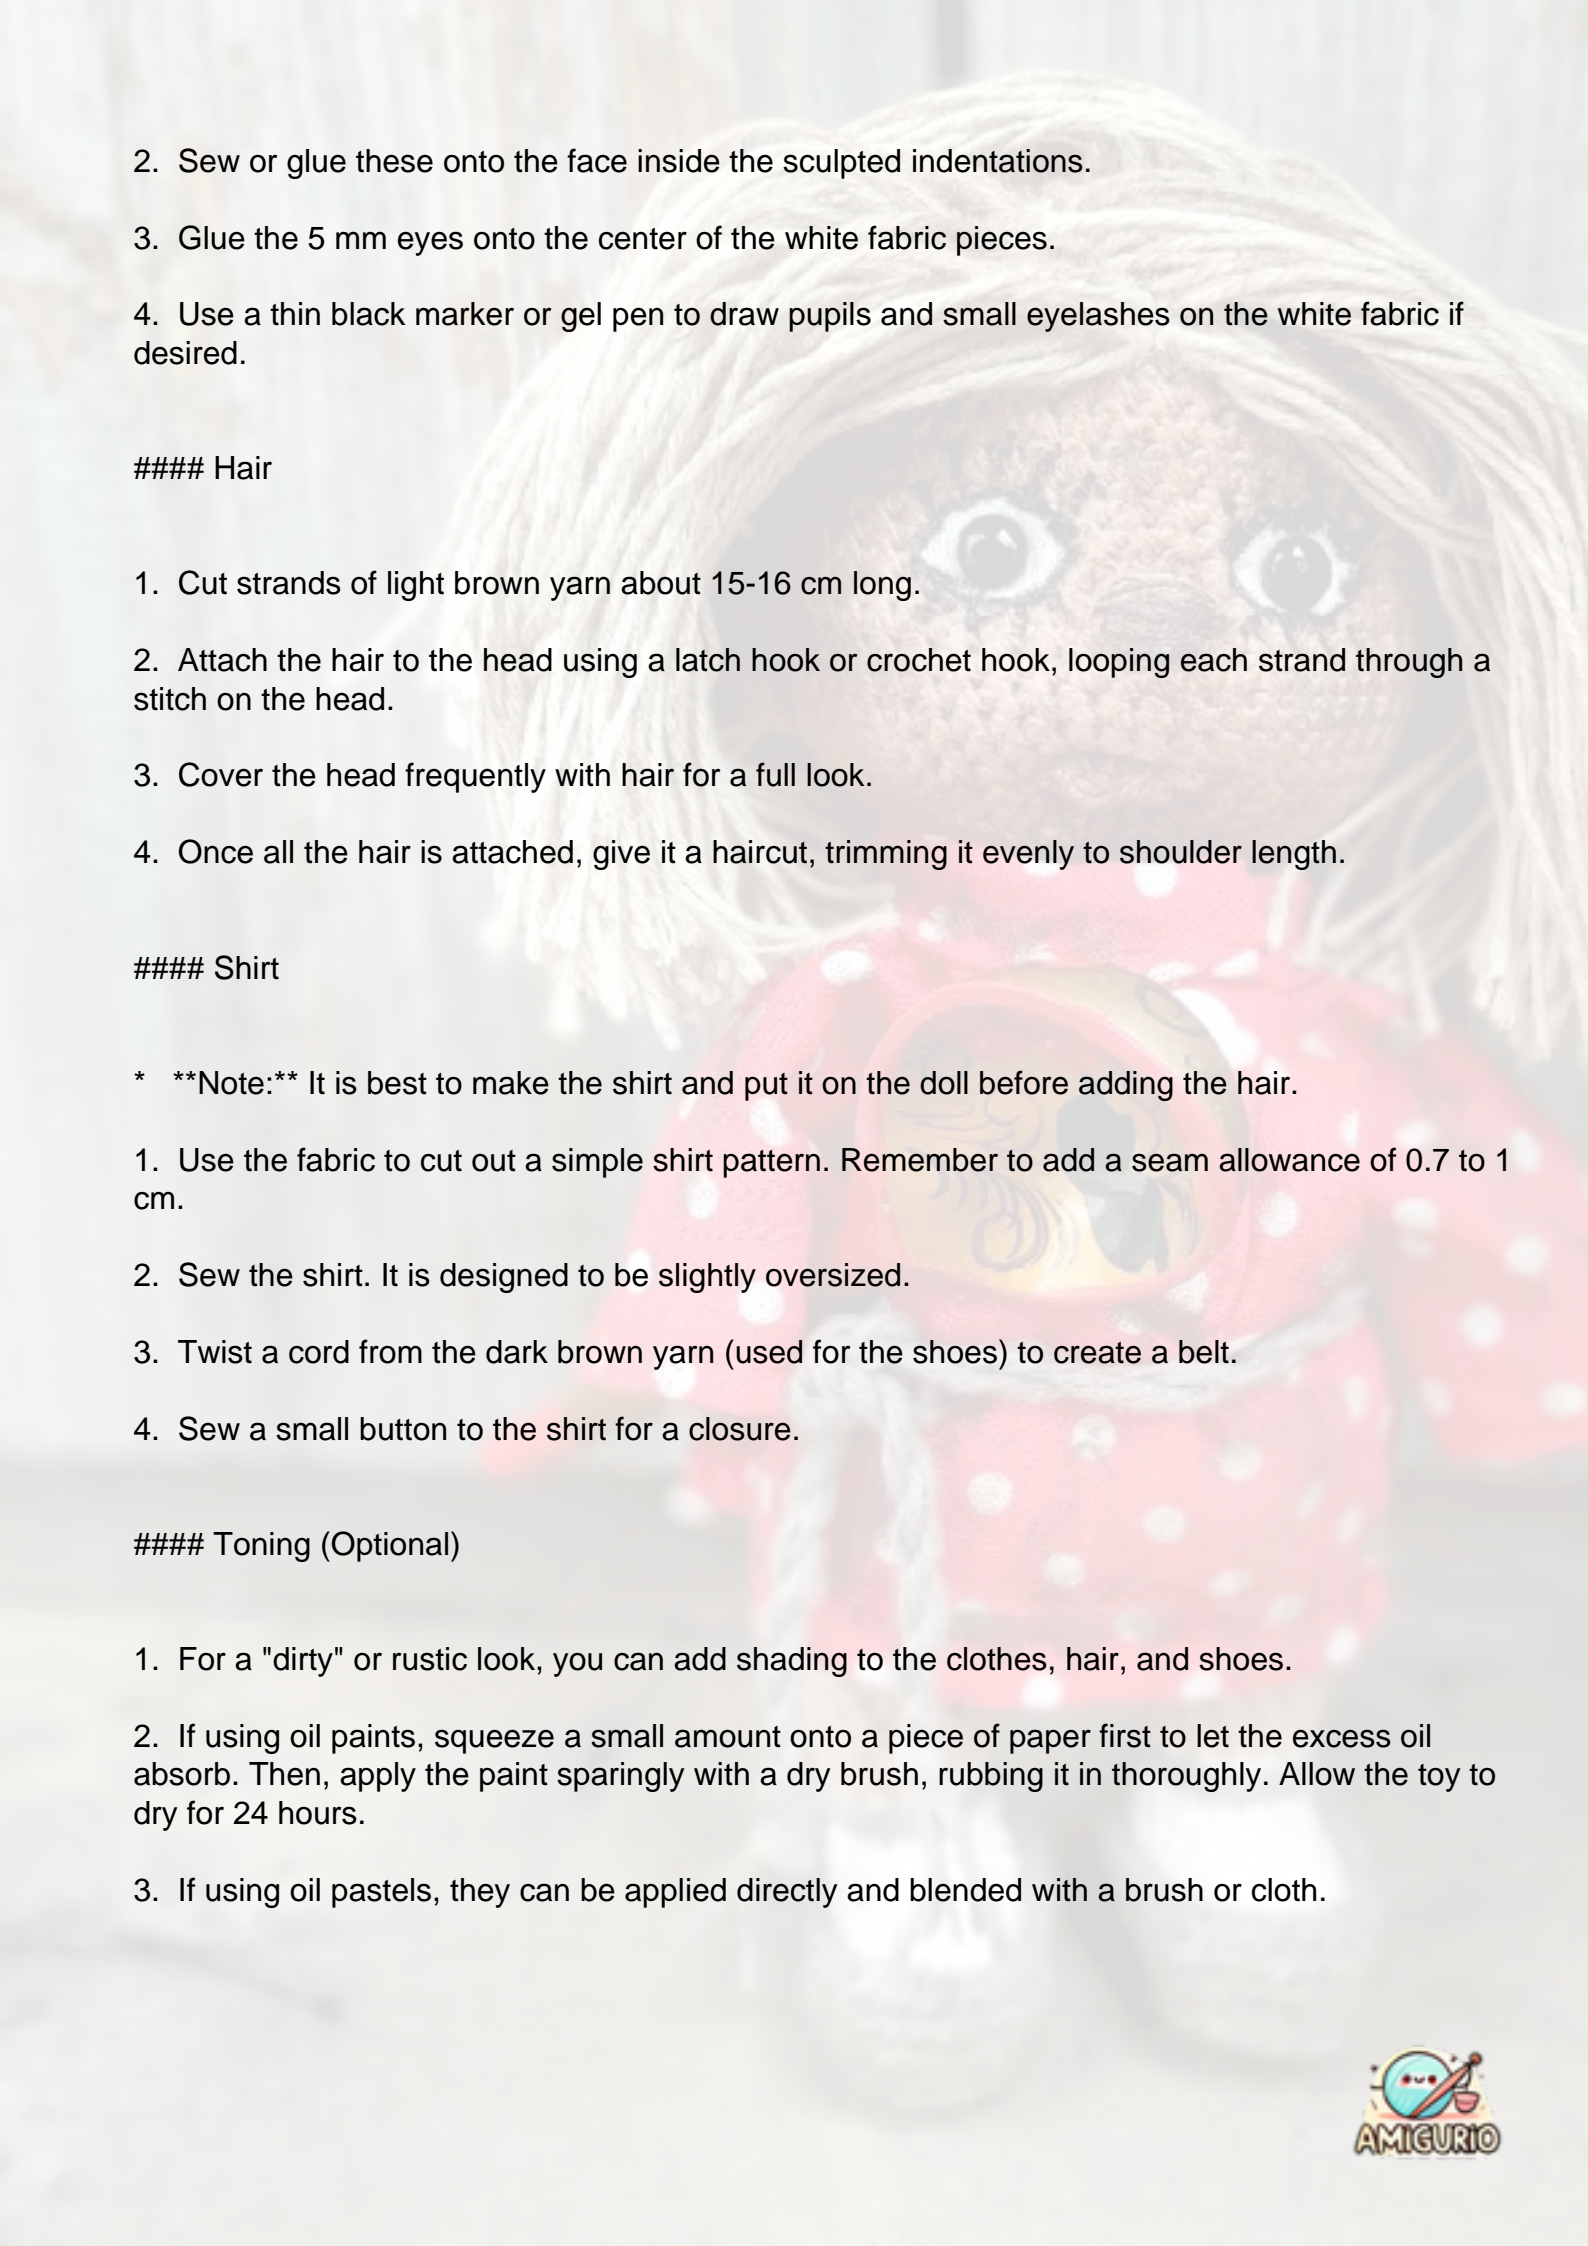

Lip

- * Embroider a small line for the mouth below the nose. A single Rococo stitch can be used for a slightly pouting lip.

Eyes

1. Cut two small ovals (approx. 1 x 0.7 cm) from white fabric to create the whites of the eyes.

- 
2. Sew or glue these onto the face inside the sculpted indentations.
 3. Glue the 5 mm eyes onto the center of the white fabric pieces.
 4. Use a thin black marker or gel pen to draw pupils and small eyelashes on the white fabric if desired.

Hair

1. Cut strands of light brown yarn about 15-16 cm long.
2. Attach the hair to the head using a latch hook or crochet hook, looping each strand through a stitch on the head.
3. Cover the head frequently with hair for a full look.
4. Once all the hair is attached, give it a haircut, trimming it evenly to shoulder length.

Shirt

* **Note:** It is best to make the shirt and put it on the doll before adding the hair.

1. Use the fabric to cut out a simple shirt pattern. Remember to add a seam allowance of 0.7 to 1 cm.
2. Sew the shirt. It is designed to be slightly oversized.
3. Twist a cord from the dark brown yarn (used for the shoes) to create a belt.
4. Sew a small button to the shirt for a closure.

Toning (Optional)

1. For a "dirty" or rustic look, you can add shading to the clothes, hair, and shoes.
2. If using oil paints, squeeze a small amount onto a piece of paper first to let the excess oil absorb. Then, apply the paint sparingly with a dry brush, rubbing it in thoroughly. Allow the toy to dry for 24 hours.
3. If using oil pastels, they can be applied directly and blended with a brush or cloth.
