Finishing and Assembly

Eyes (Embroidery)

1. Draw your desired eye shape on paper, cut it out, and test the size on the face. Once satisfied, transfer the drawing to your fabric using carbon paper.

2. Begin with the white highlight. Outline the shape with a "split stitch" using 2 strands of white floss. Then, fill the circle with stitches radiating from the center to the edge, overlapping the outline.

3. With 1 strand of black floss, outline the pupil with a "backstitch". Fill the pupil with small stitches.

4. Using 1 strand of your chosen iris color, outline the iris with a "backstitch" and then fill the area with small stitches.

5. With 1 strand of black floss, embroider the corners of the eyes.

6. Using 1 strand of white floss, outline the white of the eye with a "backstitch" and fill the area.

7. Using 1 strand of beige floss, outline the eyelid with a "backstitch" and fill the area.

8. Outline the entire eye with a "backstitch".

Before cutting out the eyes, coat the back of the embroidered contour with Moment Crystal glue. Once dry, cut them out carefully.

Face

*   **Mouth:** Embroider the mouth similarly to the eyes.

*   **Nose:** Using the same flesh-colored yarn as the head, embroider the nose.
