Face Design

Eye Sockets:

2. Insert a needle from the back of the head and exit at the first pin (point 1).

3. Insert the needle at the second pin (point 2) and exit at the starting point on the back of the head.

4. Pull gently to create an indent. Repeat several times for the first eye socket.

5. Repeat the process for the second eye.

6. Fasten the thread at the back of the head. Add a small amount of stuffing into the hole at the back of the head to maintain shape; it will be covered by the hair.

Features:

1. Attach eyes (painted, safety eyes, or embroidered) into the sockets.

2. Embroider the mouth, nose, and eyebrows with thread.
