Eye Tightening

3. Insert the needle at point 2 and exit at the original entry point on the back of the head.

4. Pull gently to create an eye socket. Repeat several times for the first eye.

5. Without cutting the yarn, insert the needle into the same hole at the back and exit at point 3.

6. Insert at point 4 and exit at the back of the head. Repeat to tighten the second eye socket.

7. Secure the yarn. Add more stuffing to the head if needed through the small hole at the back, which will be covered by hair.

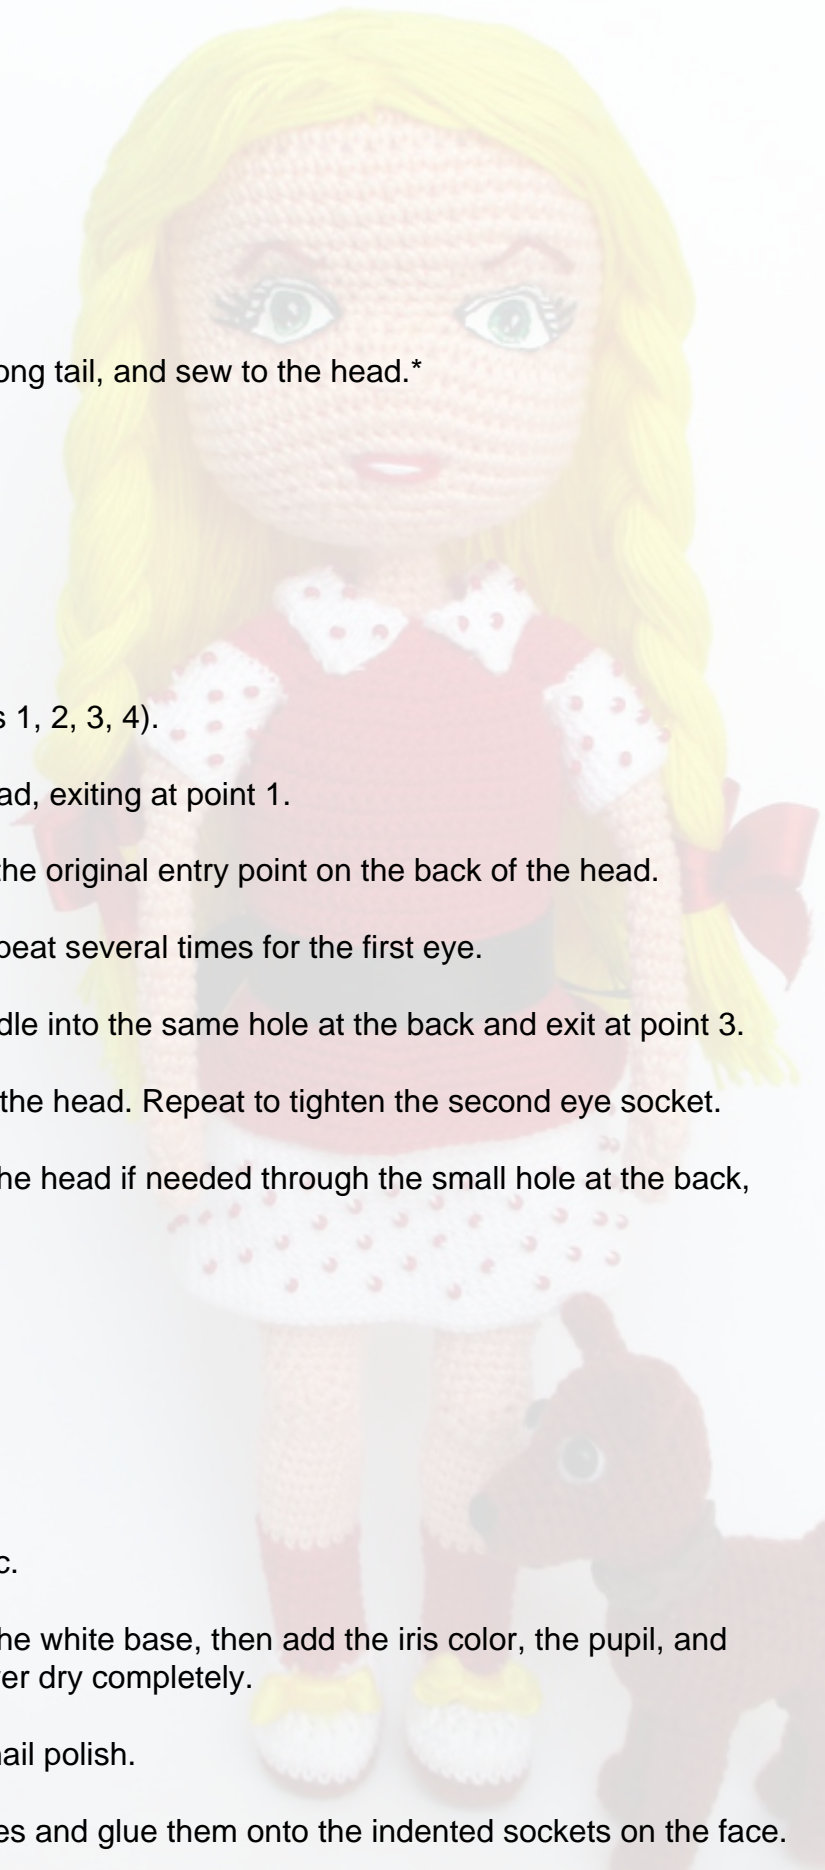

Eyes

1. Cut eye shapes from white cotton fabric.

2. Paint the eyes with acrylics: start with the white base, then add the iris color, the pupil, and finally outlines and highlights. Let each layer dry completely.

3. Once dry, coat with a clear varnish or nail polish.

4. When the varnish is dry, cut out the eyes and glue them onto the indented sockets on the face.

Hair

1. Wrap thin yarn around a book to create strands of the desired length (e.g., 10 cm for forehead to back of head).

2. Carefully sew a straight line down the middle of the wrapped yarn to create a parting.

3. Cut the loops on the opposite side to release the strands, forming a wig.

4. Position the wig on the head and glue it down along the parting using Titan glue.

5. Glue the remaining hair down, distributing it evenly to cover the head.

6. Style the hair into braids and secure with red satin ribbons.
